PROFESSIONAL SUMMARY

Computer Science undergraduate (Savitribai Phule Pune University) with hands-on experience in data science, machine learning, and full-stack development. Completed a Data Science & Analytics internship at Proxenix and industry simulations with Deloitte. Passionate about building AI-powered applications and solving real-world problems through data-driven insights. Actively participates in hackathons and open-source projects.

TECHNICAL SKILLS

Languages: Python, Java, SQL

Data Science & ML: Pandas, NumPy, Scikit-learn, OpenCV, MediaPipe, Machine Learning, Computer Vision

Data Analytics & Visualization: Microsoft Excel, Tableau, Power BI (basic), MS Office

Development Tools: Git, GitHub, VS Code, IntelliJ IDEA, Eclipse, SQLite

Core Concepts: OOP (Java/Python), Multithreading, Data Structures, RDBMS, Agile

INTERNSHIP EXPERIENCE

Data Science & Analytics Intern

Dec 2025 – Feb 2026

Proxenix | Remote

- Conducted exploratory data analysis (EDA) on real-world datasets using Python (Pandas, NumPy) to identify trends and actionable insights.
- Built and evaluated machine learning models for predictive analytics tasks, applying Scikit-learn pipelines and cross-validation techniques.
- Designed interactive data visualizations and dashboards to communicate findings to stakeholders, leveraging Matplotlib and Tableau.
- Collaborated on a team project applying computer vision techniques to automate data extraction from structured documents.

PROJECTS

Accident Detection System | Python, OpenCV, Computer Vision

- Built a real-time accident detection system using video analysis and computer vision algorithms to automatically identify crash events and trigger alerts.
- Applied object detection and motion analysis techniques achieving reliable detection across diverse test scenarios.

Object Detection System | Python, Deep Learning, Pre-trained Models

- Implemented an end-to-end object detection pipeline using pre-trained models to identify and localize multiple object classes in images and video streams.
- Demonstrated practical application of ML for vision tasks including bounding box prediction and confidence scoring.

Hand & Face Tracking Application | Python, MediaPipe, OpenCV

- Developed a real-time tracking application detecting and tracking human hands and faces simultaneously using MediaPipe and OpenCV.
- Optimized processing pipeline to achieve low-latency performance suitable for live video input.

EDUCATION

Bachelor of Engineering — Computer Science

2023 – Present

Savitribai Phule Pune University, Pune, Maharashtra

Higher Secondary Certificate (H.S.C.)

2021 – 2023

ASM's GeetaMata Junior College, Pune

CERTIFICATIONS & TRAINING

- **Deloitte Data Analytics Job Simulation** — Deloitte (Forage): Data analysis and forensic technology in a simulated professional environment
- **Programming with Python** — Online Certification: OOP, SQLite, PyQt GUI development, AI integration (6-week program)
- **Machine Learning Basics** — Vodafone Idea Foundation (VOIS): Foundational ML concepts and applications
- **Green Skills and Artificial Intelligence** — AICTE / Edunet Foundation: AI applications in sustainable technology (Skills 4 Future Program)

HACKATHONS & COMPETITIONS

- **HACKFEST 2026** — Team Code Cracker, PVPIT: Developed AI-powered solutions under competition constraints, collaborating in a fast-paced team environment.
